

Company Information

Company Name	Fuji kinzoku Co., Ltd.
Representative	Yoshitaka Yamanaka
Location	1-12-3 Haradanaka, Toyonaka City, Osaka Prefecture 561-0807
Capital	85 million yen
No. of Employees	57 (17 with national technical proficiency qualifications)
Business Information	Ultra-deep drawing press processing using a transfer press, accurate drawing processing, and VA and VE proposals, etc.,

ISO9001:
2008 certification obtained
JQA-QM9738

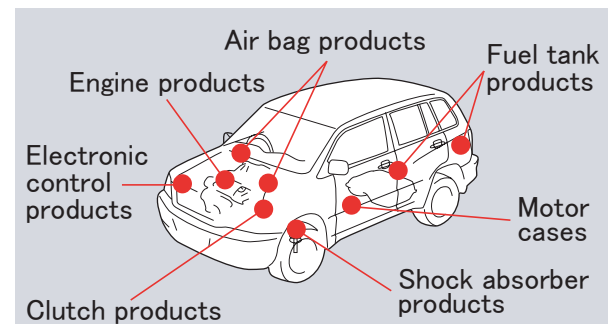

ISO14001:
2008 certification obtained
901108

Main Products

Ultra-deep drawing press products for automobiles and homeappliances Accurate deep drawing press products

(Deep drawing press products used in air bags, engines, clutches, shock absorbers, fuel tanks, motor housings, environmentally-friendly water heaters, etc.)

Processing Details

Ultra-deep drawing press processing using a transfer press

Display Articles/Proposals

Valuable VA and VE proposals using "ultra-deep drawing press processing technology" with imagination beyond the bounds of common sense!

1. Welding, soldering, and calking processes all eliminated!
2. Pipe processing and cutting eliminated!
3. Sintering and die cast cutting processes eliminated!

All-in-one deep drawing press

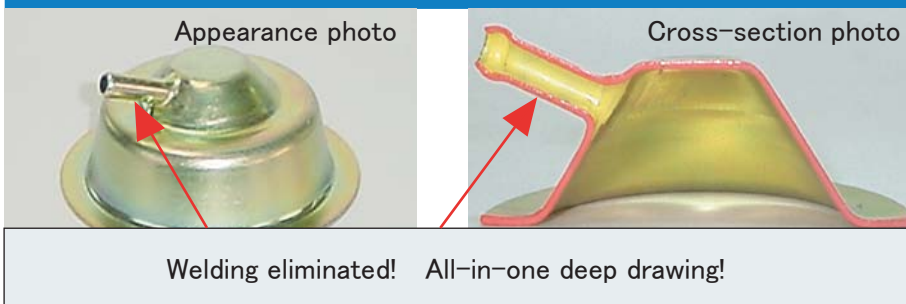

The aims are cost reduction, improved lightweight, and resource conservation (kindness to the environment).

Company Information

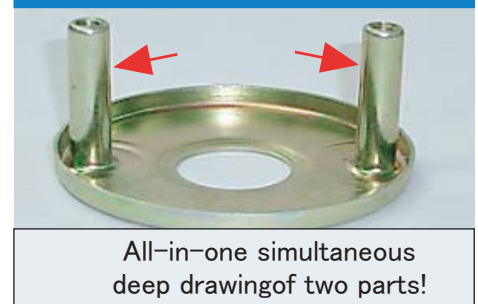

Highlights, Expert Technology, and Company PR

Examples of successful VA and VE by deep drawing press processing from a single sheet.

1. Welding elimination

2. Calking elimination

3. Stainless pipe drawing press

4. Deep drawing processed product All dies are fabricated in-house

(All products are formed using an all-in-one deep drawing press from a single sheet.)

5. Pressing alloy with high heat and corrosion resistance(InconelR 600)

6. Deep drawing process
